

The new generation of Industrial Power Tools

CP is proud to announce the new expanded line of heavy-duty industrial power tools. Understanding your needs and improving your productivity are key to our product development process. Our innovative product development centres strive to ensure that we can offer the right tool for your applications.

Through a combination of durability, reliability and 'fit for purpose' products the RediPower line of tools represent excellent value for money.

All CP tools are designed and manufactured to the standards you expect from a quality power tool manufacturer. Irrespective of your requirements for power tool performance & productivity CP are able to offer tools to suit every need whether they are used for intensive industrial production, general production or intermittent use. At CP we understand that you have a choice of power tool supply and we aim to provide you with the information and options necessary to allow you make the correct choice for your production environment.

Furthermore, our own personnel are available regionally and internationally to provide local services. Our comprehensive sales and distribution network ensure that help and advice are always available.
